By addressing underlying deficits in emotional and sensory regulation, executive functioning, and social cognition, the framework is designed to help move students toward independent regulation. The Zones of Regulation incorporates Social Thinking® concepts and numerous visuals to teach students to identify their feelings/level of alertness, understand how their behaviour impacts those around them, and learn what tools they can use to manage their feelings and states. The Handwriting Without Tears®curriculum draws from years of innovation and research to provide developmentally appropriate, multisensory strategies for early writing. The Science of Making Friends. Once you start tuning in to the idea of video modeling while watching shows and movies, you will notice that one episode or movie can be used as a teaching tool for many skills.Therapy OPS word of Caution: Use caution when using some of these clips, as not all are appropriate for every age/maturity level. A timer keeps track of the time elapsed as you complete with yourself.FreecellIn this solitaire variation, the player uses four cells to move cards around the virtual board. Some programs store the progress and scores for you to keep up with your plays. The games and activities provide prompt players to think about the powers of the characters, brainstorm which Unthinkable might appear in a situation, match strategies to characters, or Thinkables and Unthinkables, and use their social thinking in other superflexible ways. Play continues with the remaining cards, and the goal of reaching 13 each time in order to continue. Contents 4 card decks, each with: 52 cards, an Instruction Sheet, Answer sheet, and game/activity to play with the deck. A full mobile lab of Chromebooks is in use for all students. While there are videos out there for purchase, we have always preferred using our own video collection. Alert Program Through the Alert Program®, students learn about self-regulation – so things, like rising and shining, staying alert for learning at school, and winding down to go to bed, come more easily. Pyramid is a fun and entertaining card game, and a great way to pass the time.TripeaksIn the game of Tripeaks, cards are selected in a sequence going up or down to accumulate points. Zones of Regulation The Zones is a systematic, cognitive behavioural approach used to teach self-regulation by categorizing all the different ways we feel and states of alertness we experience into four concrete coloured zones. The Zones framework provides strategies to teach students to become more aware of and independent in controlling their emotions and impulses, manage their sensory needs, and improve their ability to problem solve conflicts. Superflex Superdecks are card games created to invoke your own superflexible thinking as you teach students to be more superflexible social thinkers. Eventually all the cards are cleared and the game ends. It’s part of the Microsoft software collection, and is one of the free solitaire games for PCs. The game is played using eight columns of cards lined in a row on the computer screen. The player aims to get rid of the cards in the quickest way with the fewest moves. Mind-Up was created to help children understand the ways their minds work and how their thoughts and feelings affect their behaviour. Multisensory teaching that addresses all learning styles. It is one on the most effective ways of teaching social skills and other positive behaviors for individuals on the Autism spectrum. The programs that are downloaded on your computer are usually available to play on tablets and smartphones, too. On some PCs this game is also called Klondike. SpiderSpider is a variation of the traditional solitaire. Based on UCLA’s acclaimed PEEB’s program, offering tools to parents and educators need to become “social coaches” to the teens and young adults in their lives. The Mind-Up curriculum is informed by the latest scientific research in the fields of cognitive neuroscience, social-emotional learning, and positive psychology. The videos often show an example of the “expected” and “unexpected” behaviors, to which we then pause and discuss with the group.It is our goal to have several examples for each topic listed below; however this might take some time. The popular solitaire card game has been around for years, and can be downloaded and played on personal computers. It’s all about superflexibility! The game pack is a companion teaching tool to the popular Superflex Curriculum, which helps parents and professionals teach children ages 8 – 11 about social thinking, social regulation, and social problem solving. In addition, we may use a selection of the following programs tailored and best suited to our students’ needs. This is especially true for The Big Bang Theory. The unique physical approach builds good writing habits Double lines that control children’s letter size, spacing, and placement. This game and other solitaire variations are easily played by all ages. Research has shown that students who participate in SEL programs, like Mind-Up, enhance their overall learning potential, improve their classroom behaviour, and increase their academic success. There are numerous variations of solitaire that are usually played by one individual. Through a series of simple lessons, students learn strategies to calm their minds and focus their attention.
